Benefits of Study Abroad

- **More job offers**
- **Higher GPA’s**
- **Complex Thinking**
- **Higher starting salaries**
- **Flexibility**
- **Creativity**

Recent studies by the University of Florida, Singapore Management University, and the European Institute for Business Administration (INSEAD) have shown that students who study abroad perform better in flexibility, creativity, and complex thinking.

Surveys by the University of California Merced, International Education of Students IES, and Inside Higher Education show that study-abroad alumni achieve higher GPAs, graduate at higher rates, receive more job offers, and make higher starting salaries compared to students who do not study abroad.
